**100** YEARS  
of  
**EXPERTISE**

Are maintaining the floors of your hospital a challenge? Have they lost their shine?

Our team of floor care professionals can make recommendations for the best approach.

## FIRST IMPRESSIONS are PRICELESS

Just about every client experience expert talks about the importance of the first impression.

What are your clients seeing, smelling and feeling when they walk in the door of your hospital?

Are you making a good first impression?

## We can help!

Do you really know how long clients wait?

Have you spent time in your exam rooms as a client would?

What do you think they are doing when they are waiting 5-10 minutes?

Looking around!

**5**  
**minutes**  
can feel like a  
**LONG TIME**

Another critical opportunity to make a positive impression is your exam rooms where clients spend idle time waiting.

Are your floors and baseboards clean?

Are dust bunnies "barking" at them?

Does it smell good?

Are you making a good impression?

## We can help!

Do you have confidence in the products you are using?

Are the products you are using damaging your equipment and surfaces?

Do you have team members that are sensitive to the products they are using?

**ORGANIZED**  
EFFICIENT HOSPITAL  
**healthy patients**

We know how important it is to keep your workplace clean and organized. It is key to keeping your hospital running smoothly.

We also know how important it is to prevent the spread of infection amongst your patients.

## We can help!

Do you wish you had information to help make caring for your patients easier?

Do your hospitalized pets and boarders go home with "animal hospital smell"?

Can you even tell?

They aren't  
just  
patients  
they are  
**FAMILY**

We know you want to take the best care of your clients' family members - your patients.

We also know you want to protect them and send them back home happy and healthy.

## We can help!

Do you wish you had tools to help make clean up fast and uncomplicated?

Are you tired of trying different products?

Would expert advice be helpful?

## proper HOUSEKEEPING and MAINTENANCE is critically important

Housekeeping and maintenance is a daily reality at busy animal hospitals.

Paying attention to detail and getting the job done quickly and the right way is critically important.

That way your hospital team can focus on what's most important – the pets in your care.

## We can help!

## We are LEED GA Certified

LEED is a set of rating systems for the design, construction, operation, and maintenance of green buildings, homes and neighborhoods. Developed by the U.S. Green Building Council (USGBC), it is intended to help building owners and operators be environmentally responsible and use resources efficiently as well as provide safe and healthy environments for people to work in.

Would you like to develop a comprehensive green cleaning program?

We are dedicated to helping you provide a safe and clean environment for the pets in your care, in an ecologically responsible way.

We carry a variety of green, all natural products and are keeping in touch with the marketplace to continue to offer our clients a variety of choices.

We can play a critical supportive role in helping you obtain and/or maintain LEED certification points through the products we have available.

# SAFETY COMPLIANCE simplified

Implementing a safety program and complying with OSHA requirements does not have to be tedious. Because we are a company that sells chemicals and other maintenance products it is something we have years of experience with.

We know most of you have likely purchased other safety programs. How are they working for your hospital?

Our veterinary operations expert comes from a background of developing and implementing a nation-wide, proven, easy to implement program that has held up during OSHA inspections, and met AAHA approval during the certification process.

We want to make an easy to implement program available to you when you become our client.
